

## Ski Boats

Victorias largest supplier of Malibu Ski Boats.

At Regal Marine we pride ourselves on providing the highest possible quality Ski boats to our valued customers.

Our extensive range of Malibu Ski Boats range from;

### Ski Boats

2011 Response - Closed Bow

#### WHY MESS WITH SUCCESS?

The Response series has seen only minor changes in the last few years for a very good reason: it remains the standard by which all three-event boats are judged. No wonder, for the Response is essential ski boat, stripped of pretension and designed for pure performance, both behind the boat and behind the wheel. As WaterSki magazine put it, 'this is a boat that is as much fun to drive as it is to ski'..

2011 Response LX

#### DESIGNED TO ACCOMMODATE.

No matter what your aspirations - from first learning to ski to pro level slalom competition - the Response LX is designed to accommodate you. The Response LX, built on the 3-event SV23 Diamond hull, has pulled 11 World Records and earned three "Boat of the Year" awards from PowerBoat Magazine. Despite this fiercely competitive record, its price reflects a less intimidating side. Don't be fooled - The Response LX is Malibu throughout, with a steadfast performance that accommodates beginner to world record champion with equal satisfaction just by doing what it does best.

2011 Response LXI

**THE SECRET IS OUT:** The Response LXi is the "go to" boat for the Pro Ski Tour and the secret weapon of World Champions like Will Asher and Thomas Degasperi. Precision in the Response LXi goes from water-level, with the record-breaking hull design, all the way through the operations and monitoring of the advanced gauge panel. The 5" LCD embedded Medallion gauges border a Film Compensated Super Twisted Nematic LCD in the center that offers up advanced system information in a high contrast, easy-to-navigate format. Malibu gives you more information at the dash, so you have the precise control you need.

## 2010 Response Fxi

**COMPROMISE IS A COP OUT:** The Response Fxi is Malibu's answer to the avid skier's growing family. A cross-over built on the 20-foot Cut Diamond Hull, it is a USA Waterski Record Capable Approved skiing machine with a 98-inch beam and increased freeboard. Translation: performance plus room for family. Options such as the Power Wedge and Illusion G3 fold-down tower allow you to adapt to the boarders in the family. Even this professional's tool is equipped for comfort because Malibu Boats' engineers believe being on the water is more fun with simple, but functional touches like the standard swivel driver's seat.

## The New Illusion G3 Tower

Watch this short youtube clip on how easy, the New weightless Malibu's Illusion G3 Folds Down

Available as an option on the Response Lxi and Response Fxi. The new Illusion G3 Tower is standard with the swing in removable board racks as well as a Stainless Steel bimini top.
